

# AIRCAGE

a practice sports exclusive  
 The AirCage is a customizable electric retractable batting cage tailor fit for any ceiling. Our installation crew has installed hundreds of AirCages nationwide. Our clients include the U.S. Army, Virginia Tech, U.S Navy, University of Memphis, Arkansas, Colorado, Baylor, and Easton, along with dozens of high schools, academies and residences.

## COMPARE AIRCAGE WITH THE COMPETITION

FEATURES	AIRCAGE	OTHER CAGES	HIGHLIGHTS
Low Profile Storage	<b>YES</b>	NOT ALL	AirCage's exclusive hoist design allows retraction within about 12 in of the ceiling. Customization available for lower profile.
Large Spools for Faster Operation	<b>YES</b>	2-3/8" Drivelines	AirCage Lifting Spools are 5" diameter - which equals quicker set-up & take-down.
Load Rated Pulleys	<b>YES</b>	NOT ALL	Our pulleys include lifetime lubricated oil light bushings, for no maintenance and safer long-term operation.
Custom Sizes	<b>YES</b>	NOT ALL	Can build to any size, creating giant cages with sliding curtains.
Hands Free AirCage 2.0 Option	<b>YES</b>	NOT ALL	Cage lifts from bottom resulting in no manual effort.
Wireless Remote Option	<b>YES</b>	NOT ALL	Can be programmed to control multiple winches. Eliminates conduit and expensive electrical work.
Custom Built and Laser Cut Brackets	<b>YES</b>	NO	Precision cut brackets are designed and built specifically for each application for safety.
Programmable Winch Option	<b>YES</b>	NO 1-Speed	The winch gains momentum as the cage elevates, resulting in less stress on the motor and more efficient operation.
Safety Mechanisms	<b>YES</b>	NOT ALL	1) Built -In Integral Brake Motor 2) Add On Curtain Lock eliminates risk of freefall.
1-5/8 In Heavy-Duty Modular Framework	<b>YES</b>	NO 1-3/8 in	Heavier framework creates more solid structure without over-loading winch.
Drive-Line Brackets Fully Encased	<b>YES</b>	NO 2 Wheel Drive Lines	360 Degree Wheels keep spools in-line with smoother operation compared to 2 Wheel Drive Lines.
Custom Designed Lifting Spools	<b>YES</b>	NO	Creates single layer of cable. Customized based on elevations and weights, creating less friction on cable and extended life-span.
Low Voltage Wiring	<b>YES</b>	NOT ALL	Prevents overheating and winch malfunction.
